

The Lyme museum: dare materialità all'invisibile

Saluti

Prof.ssa Patrizia Dragoni, UNIVERSITÀ
DI MACERATA

Interviene

Dott.ssa Ilenia Atzori

Curator in Residence,
Lyme Museum, Leicester

The Lyme Museum is an independent museum with an education hub, a digital platform, a physical collection and an international community.

It is the first museum dedicated to exploring the lived experiences of invisible illnesses and disabilities through materiality and storytelling.

The museum collects objects, stories, flat lays and artworks with one aim: making the invisible visible, one flat lay and one story at a time.
